- Design : Figma
- Basic Frontend : Html , Css
- Collaboration : Notion

Soft Skills

- User Empathy & Problem-Solving
- Collaboration with Devs/PMs
- Adaptability to Feedback
- Storytelling for Design Decisions

About Me

I'm a passionate Junior UI/UX Designer with a strong foundation in user-centered design principles. My skills include wireframing, prototyping, and creating intuitive interfaces using tools Figma. I thrive on solving user problems through research, iterative design, and collaboration. Eager to learn and contribute to impactful digital experiences, I combine creativity with empathy to bridge the gap between users and technology.

Project Experience

Foodgo (Burger Shop).

Designed a burger ordering app with full menu display, search and filter functions, detailed burger views, and smooth ordering flow. Included real-time customer support chat and secure payment options. Focused on delivering an intuitive, user-friendly experience through clean UI, consistent layout, and accessible design to ensure ease of use and high customer satisfaction.

Phlox (Electronics Store).

An e-commerce website designed to sell phones, laptops, smartwatches, earbuds, and gaming consoles. Focused on user-friendly navigation and a smooth shopping experience, with clear product categories.

Music App

A music app with user account login, categorized music listings, and a dedicated section for each artist's songs. Users can explore music by genre or artist, and enjoy seamless music streaming with a simple, intuitive, and engaging user experience.

ABCD (Food App).

A coffee ordering web app offering hot coffee, cold coffee, and ice cream. Users can browse categorized menus, view item details, and place orders easily. Designed with a clean UI and smooth UX to ensure quick, convenient, and satisfying experiences.
